Medical Schools in the United States, 2009-2010

Barbara Barzansky, PhD

Sylvia I. Etzel

THE FOLLOWING TABLES CONTAIN data derived mainly from the 2009-2010 Liaison Committee on Medical Education (LCME) Annual Medical School Questionnaire. The questionnaire was sent in February 2010 to

the deans of all 130 LCME-accredited medical schools with enrolled students. There was a 100% response rate. Each questionnaire was reviewed and attempts were

made to verify information and obtain missing data. Data for years other than 2009-2010 were obtained from previous LCME Annual Medical School Questionnaires.

Author Affiliations: Divisions of Undergraduate and Graduate Medical Education, American Medical Association, Chicago, Illinois.

Funding/Support: This research was funded solely by the American Medical Association, which employs Dr Barzansky and Ms Etzel.

Financial Disclosure: None reported.
